### Let’s Move Holyoke 5-2-1-0
### Fall Site Survey Results
### October 2019

| # of participants served by all partner sites | 8,462** | -- |

*This is a rough estimate. Some respondents were unable to calculate how many participants they served. In some instances the evaluator did not know whether or not the numbers served reported by sites include the same participants. This rough estimate is conservative and the number of participants served in the past year is most likely larger than reported.*

Clinical and Healthcare Activities

Holyoke Medical Center

Healthy Eating and Active Living Activities Being Implemented:
- Educational bulletin board
- Food access
- Policy/ systems change
- Housing support
- Employment support/ resources
- Transportation support

5210 Priority Strategies Being Implemented:
- Provide non-food rewards
Key 5210 Activities Implemented in the Past Year:

- **Healthy living plan (new)**
  Target Population(s): adults

- **Health fairs (new)**
  Target Population(s): Young children, school-age children, adolescents, & adults

- **Newsletter/Marketing**
  Target Population(s): Young children, school-age children, adolescents, & adults
  The 5210 message is now published in the biweekly employee newsletter with a link to fill out the healthy living plan.

- **Classroom activities**
  Target Population(s): Young children
  Visited preschool in Granby to discuss healthy eating and lifestyle

Holyoke Health Center

Healthy Eating and Active Living Activities Being Implemented:

- Culturally appropriate menus
- Nutrition program
- Educational bulletin board
- Cooking demonstrations
- 5210 PowerPoint curriculum
- Safe Routes to School
- Farm gardening program
- Food access
- Policy/ systems change
- Housing support
- Employment support/ resources
- Transportation support

5210 Priority Strategies Being Implemented:

- Provide healthy choices for snacks and celebrations; limit unhealthy choices
- Provide water and low fat milk; limit or eliminate sugary beverages
- Provide opportunities for children to get physical activity everyday
- Provide non-food rewards
- Limit screen time

Key 5210 Activities Implemented in the Past Year:

- **New Advisory Board Members (New)**
  Target Population(s): Adults
  Many are new with the same organization (i.e. Mass in Motion, HMC Benefits, Head Start, etc), but there are new relationships as well with UMass School of Public Health, Sodexo School Garden Program, Hampden County CHIP, etc.

- **UMass Public Health Service Endowment Grant (New)**
  Target Population(s): Young children, school-age children, adolescents, and adults
Collaborating with UMass School of Public Health, CCHER, Dr. Arin Martinez awarded a $15,000 grant to evaluate the tools and messages used by LMH 5210. Will be an opportunity to understand the optimal methods to engage the community around healthy lifestyles and 5210.

• **Hampden County CHIP Domain 4, 5210 priority strategy (New)**  
  Target Population(s): *Young children, school-age children, adolescents, and adults*  
  Ana Jaramillo, 5210 coordinator, and Kathy Anderson (member and HMC community benefits) attended and CHIP domain 4 meetings. Final version includes LMH 5210 as a priority strategy for all of Hamden County. Being a priority strategy for Hampden county will allow increased exposure of the partnership and messaging to other communities and elevates the message within our area.

• **Tabling/cooking demos/workshops (New)**  
  Target Population(s): *Young children, school-age children, adolescents, and adults*  
  Some of the many opportunities include: Halloween tabling, farmers market tabling, multiple schools tabling and exhibits, HWC group visit workshops, etc.

• **CORD 2 Healthy Weight Clinic (Continued)**  
  Target Population(s): *Young children, school-age children, adolescents, and adults*  
  The Pediatric Healthy Weight Clinic has been enhanced with a new collaboration with Mass General Hospital, which received a CDC funded CORD (Childhood Obesity Research Demonstration) 2 grant. The enhancement of the program has been occurring since 1/1/17 and is as follows: Recruited families are seen 2x per month over a year, once individually and once in a group. The individual visits include a physician, dietitian, behavioral health clinician, and a community health worker. The group visits include a dietitian and a health educator, and are based on a standard curriculum that includes LMH 5210 messages and components of the LMH 5210 curriculum. The healthy living plan is used in all of the individual visits to set patient centered goals to work on between visits. The community health worker attempts to connect the families with resources in the community to promote a healthy lifestyle, e.g. YMCA, farmers market. The CHW also calls the families between visits to check on progress toward goals and to motivate and problem solve if needed. As part of this grant, multiple trainings of providers and staff have occurred in the last year. All have included LMH 5210 training. Also, as an incentive for this program, fruit and vegetable vouchers are being used. They are redeemable at Stop & Shop for only fresh and frozen fruits and veggies. This process has replaced our past fruit and veggie prescription program. This grant will continue through at least the end of 2018.

• **LMH 5210 Webpage development and launch (Continued)**  
  Target Population(s): *School-age children, adolescents, and adults*  
  Working with Rhyme Digital we developed a marketing campaign to draw people to the newly developed LMH 5210 web page. Many residents of the city were targeted using Facebook and Google ads. The web page had 4530 page views during the campaign.

• **Let’s Move Holyoke 5210 Facebook page (Continued)**  
  Target Population(s): *School-age children, adolescents, and adults*  
  Over 200 followers ([https://www.facebook.com/Letsmoveholyoke5210](https://www.facebook.com/Letsmoveholyoke5210))

• **Online Nutri Quiz during National Nutrition Month to all staff at HHC (Continued)**  
  Target Population(s): *Adults*  
  Every year Maria provides indirect nutrition education with all the Holyoke Health Center staff online. The nutrition quiz consists of true/false statements. She incorporates evidence-based information regarding exercise, Zero Sugary Beverages, and other nutrition topics.

• **Wellness Fair to HHC staff (Continued)**  
  Target Population(s): *Adults*
Invited everyone at HHC as part of the Wellness Team. The nutritionist completed 19 Body Composition Analyses for the staff members who registered, as well as coordinated referrals to the YMCA. General recommendations for weight loss were distributed.

- **AAP NCE Poster Display 10/2018 (Continued)**
  Target Population(s): Adults

- **MPHA Exhibit 11/2018 (Continued)**
  Target Population(s): Adults

- **Community events and outreach (Continued)**
  Target Population(s): Young children, school-age children, adolescents, and adults
  Health fairs, community events, and/or 5210 education

---

**River Valley School-based Health Center**

**Healthy Eating and Active Living Activities Being Implemented:**
- 5210 educational bulletin board
- Food access

**5210 Priority Strategies Being Implemented:**
- Provide healthy choices for snacks and celebrations; limit unhealthy choices
- Provide water and low fat milk; limit or eliminate sugary beverages
- Provide opportunities for children to get physical activity everyday
- Limit screen time

**Key 5210 Activities Implemented in the Past Year:**
- **Healthy snack/breakfast items** *(New)*
  Target Population(s): Adolescents

- **Healthy Strategies** *(New)*
  Target Population(s): School-age children, adolescents

  • Provide water and low fat milk; limit or eliminate sugary beverages
  • Provide opportunities for children to get physical activity everyday
Let's Move Holyoke 5-2-1-0  
Fall Site Survey Results  
October 2019

• Provide non-food rewards

Key 5210 Activities Implemented in the Past Year:

• Food pantries (New)  
  Target Population(s): Adolescents and adults  
  School Nurses are partnering with SODEXO in the creation of two new food pantries, one at each of the high schools.

• Great Body Shop Comprehensive Health Education Program (New)  
  Target Population(s): Young children, school-age children, adolescents  
  K-8 Comprehensive Health Education Program, the Great Body Shop. Nutrition component supports efforts of 5-2-1-0. Training and full implementation began this year.

• Nutrition education (Continued)  
  Target Population(s): Young children, school-age children, adolescents, and adults

Sodexo Food

Healthy Eating and Active Living Activities Being Implemented:
• Healthy cooking and food prep infrastructure  
• Culturally appropriate food menus  
• Nutrition program  
• Food access

5210 Priority Strategies Being Implemented:
• Provide healthy choices for snacks and celebrations; limit unhealthy choices  
• Provide water and low fat milk; limit or eliminate sugary beverages

Key 5210 Activities Implemented in the Past Year:
• Not reported

School Gardens for Sodexo

Healthy Eating and Active Living Activities Being Implemented:
• Farm/gardening program

5210 Priority Strategies Being Implemented:
• Provide healthy choices for snacks and celebrations; limit unhealthy choices

Key 5210 Activities Implemented in the Past Year:
• School Gardens  
  Working with 5210 to promote school gardens where students can grow, pick and eat healthy organic food. Sodexo has committed funds to establish a garden coordinator and gardens.

Out of School Activities
YMCA

Healthy Eating and Active Living Activities Being Implemented:
- Cooking demonstrations
- 5210 educational bulletin board
- Physical activity program
- Increased recess or physical activity time
- Afterschool program

5210 Priority Strategies Being Implemented:
- Provide healthy choices for snacks and celebrations; limit unhealthy choices
- Provide water and low fat milk; limit or eliminate sugary beverages
- Provide non-food rewards
- Provide opportunities for children to get physical activity everyday

Key 5210 Activities Implemented in the Past Year:
- UMASS Extension Summer Camp (Continued)
  Target Population(s): School-age children and adolescents
- Healthy Weight and Your Child (Continued)
  Target Population(s): School-age children and adolescents
- CATCH (Continued)
  Target Population(s): School-age children and adolescents
  CATCH stands for a Coordinated Approach to Child Health. By uniting multiple players in a child’s life to create a community of health, CATCH is proven to prevent childhood obesity.

UMASS Extension Nutrition Program

Healthy Eating and Active Living Activities Being Implemented:
- Afterschool program
- Nutrition program
- Cooking demonstrations

5210 Priority Strategies Being Implemented:
- Provide healthy choices for snacks and celebrations; limit unhealthy choices
- Provide water and low fat milk; limit or eliminate sugary beverages
- Limit screen time

Key 5210 Activities Implemented in the Past Year:
- Nutrition education (Continued)
  Target Population(s): School age children

Early Childhood Activities

Head Start

Healthy Eating and Active Living Activities Being Implemented:
Let’s Move Holyoke 5-2-1-0
Fall Site Survey Results
October 2019

- Physical activity breaks in school/preschool day
